EDUCATION

Gayatri Vidya Parishad College of Engineering

B.Tech in Information Technology (GPA: 8.78/10)

2023 – 2027

Visakhapatnam, India

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, C, C++, HTML, CSS

Frameworks: React.JS, Express.JS, Bootstrap, Tailwind CSS

Tools: Git, GitHub, Linux, LLMs

Databases: SQLite, MongoDB, Redis

Coursework: Data Structures & Algorithms, DBMS, Operating Systems, OOP, Computer Networks

PROJECTS

Latency Doctor | *API Profiling Ecosystem*

- Developed a high-precision API profiling ecosystem for Node.js, capturing execution time with **microsecond-level accuracy** using **process.hrtime** and **AsyncLocalStorage**.
- Engineered a non-intrusive middleware to differentiate between **DB queries vs. Logic**, reducing debugging time by **40%**, and built a centralized dashboard to visualize trace waterfalls. [\[GitHub\]](#)

Indian Chess Academy | *Academy Management System*

- Architected a scalable ****SaaS-style platform**** using the ****PERN Stack**** to digitize operations for ****3 distinct user roles****, replacing fragmented manual workflows for Admins, Coaches, and Parents.
- Engineered a custom ****Analytics Engine**** utilizing complex SQL aggregations to track **Monthly Recurring Revenue (MRR)** and lead conversion rates, securing **15+ API endpoints** with ****Role-Based Access Control (RBAC)****. [\[GitHub\]](#)

Nxt Trends | *E-commerce Application*

- Developed a robust e-commerce platform handling **100+ products** with advanced filtering, sorting, and **JWT-based authentication** for secure user sessions.
- Optimized frontend performance by implementing **protected routes** and global state management, leading to a **seamless shopping experience** and efficient cart manipulation. [\[GitHub\]](#)

Twitter API | *Social Media Backend*

- Built a high-performance RESTful backend capable of handling complex social graph queries (followers/following) using **optimized SQL joins** on SQLite.
- Implemented secure **Bcrypt password hashing** and strictly validated **REST API** constraints, ensuring data integrity across user feeds and tweet threads. [\[GitHub\]](#)

ACHIEVEMENTS

- Solved **1000+ DSA & CP problems** across multiple platforms, strengthening algorithmic thinking.
- Developed and contributed to **3+ projects** that effectively solved practical real-world problems.
- Coding Profile Ratings:** LeetCode (**Knight - max(2009)**), CodeChef (**3 Star - max(1616)**), CodeForces (**Specialist - max(1409)**).
- 2x Winner** of the **CODEX Coding Contest**, organized by IEEE SB WIE GVPCE(A).

CERTIFICATIONS

- Comprehensive record of completed online certifications and professional courses. [\[View Drive\]](#)
